

# Chapter Funded Project Contract

This contract is between a Northwest ISD Agriculture Engineering pathway department and the following Agriculture Engineering pathway student:

---

Building a project for show purposes is part of the educational experience of an Agriculture Engineering pathway student. Therefore, as a Agriculture Engineering pathway student, I have decided to build a project as a team sponsored by the district. Others may assist me in preparation or holding materials in place, but I will be in a group determined by the AST at the school at which I attended constructing this project. Furthermore, I understand that participating in a group project there are inevitable obligations that I have to adhere to that are listed below.

By signing, I accept full responsibility for construction and following the policies set forth by the district.

This project must be completed by \_\_\_\_\_ in order for me to participate in any shows this year. As an Agriculture Pathway advisor, I will check progress on this project from time to time. The project must meet the quality standards set by Northwest ISD in order to be exhibited at any show under Northwest ISD. Students and their Guardians must understand the estimate given by the Agriculture Engineer pathway Advisor is only a rough estimate of the time to complete the project. Completion of the project is dependent upon acquisition of materials and student progress. Further, Guardians understand that there are certain requirements that are listed below.

Students and their Guardians will be responsible for the following:

- Completion of the project.
- Working with other students cohesively.
- Maintaining a passing grade average.
- Students are required to work outside of school hours to complete the project.
- Students are required to build a portfolio during the construction of the project.
- Students are required to purchase their own show attire.
- Students and Guardians are required to provide their own transportation, lodging, and meals.
- Students will be required to complete their project by the assigned date \_\_\_\_\_, set forth by the Agriculture Engineering pathway advisor.
- Students are required to adhere to the policies and procedures of the handbook and NISD.

- Working on the project after or before school or on weekends may be required (weekends in limited circumstances), students will adhere to the conduct code policies set forth by the Northwest ISD. This also includes while attending shows.
